

## Pecan Creek Trail Master Plan

City Council adopted the Parks, Recreation, and Trails System Master Plan on March 1, 2022. The plan identifies a future trail along the Pecan Creek Corridor. The trail length is estimated to be between eight to ten miles. The trail's starting point is from the DCTA Trail/Fred Moore Park, with the endpoint being at Lewisville Lake. The path is proposed to go through both private and City land. Staff is working diligently to identify the areas needed within the private land and engage with the landowners in the pursuit of land dedication or attaining public access easements.

Parks and Recreation will collaborate with the Bike/Ped/ADA Coordinator and Environmental Services and Sustainability staff throughout the creation of this plan. The proposed project will consist of public engagement, needs assessment, conceptual designs, construction documents, the probable cost for the development, and the ability to provide grant writing services. This information will become part of the master plan for constructing the linear trail. The trail includes items such as but is not limited to concrete trails, bridges, boardwalks, landscaping, and typical amenities.

02 Dec 2022

The master plan process for the alignment of the Pecan Creek Trail is nearing it's completion. Staff is scheduled to present findings to Park Board and Council in January 2023.

Staff has prioritized going into the community and seeking input by attending numerous events & holding public meetings.

- August 2022: Virtual Public Meeting
- September 2022: Preserve at Pecan Creek HOA Meeting, National Night Out event, PARKing Day, Parks, Recreation and Beautification Board
- October 2022: Arts & Jazz Festival, Twilight Tunes, Denton 360 Group, National Night Out Event, Dia de Los Muertos Event
- November 2022: State of The City
