CITY OF DENTON PARKS AND RECREATION DEPARTMENT

MAINTENANCE STANDARD & CLASSIFICATION SYSTEM

The Maintenance Standard & Classification System establishes guidelines that direct staff in the maintenance of all properties under the management of the City of Denton Parks and Recreation Department. Maintenance standards and classifications are assigned to park areas based on the type of use and the level of development at each site. Multiple classification levels may exist at any one park.

- CLASS A Highest level of maintenance for high visibility/ high use park areas on developed park land. (Civic Center, athletic fields, public building entries)
- CLASS B Moderate level of maintenance for locations with moderate activity & visibility. (Most neighborhood parks)
- CLASS C Limited level of maintenance for naturalized areas that receive minimum use and no hardscape development. (Perimeter control, roadside mowing, wildflower areas)
- CLASS D Base level of maintenance for undeveloped park sites, natural, open space, greenbelts and preserves.

TURFGRASS MAINTENANCE

MAINTENANC E TASK	Class AA	Class A	Class B	Class C	Class D
Mow, edge, and trim	2 times per week Mow at 1.5 – 2", clippings not collected	32 mowing cycles per year every 7 days at 2.5-3", clippings not collected. Leaves are shredded and returned to soil.	Every 14 days Mow at 2.5-3", clippings not collected. Leaves are shredded and returned to soil.	5-7 mowing cycles. Mow at 4-6" clippings not collected. Leaves are shredded and returned to soil.	As needed to maintain an identified particular natural state or within City code
Fertilization	4-5 lbs of Nitrogen per 1000 sf per year	3 lbs Nitrogen per 1000 sf per year in 2 applications – In conjunction with Athletic field fertilization	As needed	None	None
Irrigation	Minimum of 1" per week, repairs w/in 24 hours. Potential increase watering due to drought or ryegrass transition. Deep watering cycles recommended	Approximate 1" per week, repairs within 48 hours.	None	None	None
Aerification	5 times per year in conjunction with fertilizer applications	As needed	As needed	None	None
Over-seed/sod	Over-seed Ryegrass on athletic fields Oct. 1 Sod during field renovations	Overseed all bare areas in turfgrass once during growing season.	As needed	None	None
Leaf Removal	Mow & mulch	Mow & mulch	Mow & Mulch	None	None
Pesticide Program: - Herbicide - Insecticide - Fungicide	January, February, March Pre-emergent for summer grassy	January, February, March Non selective herbicide on	January, February, March Non selective herbicide on	As needed to maintain an identified particular	As needed to maintain an identified particular

	Spot treat broadleaf and/or grassy weed infestations during from March until December May and August - Broadcast treatment for fire ants with Advion, Extinguish, or Award II, 1lb per acre. Spot treat for fire ants during the warm season. April - September Monitor and treat for pest infestations such as Grub Worms, Army Worms and other pesticides detrimental to plant health or public safety.	May and August - Broadcast treatment for fire ants with Advion, Extinguish, or Award II, 11b per acre. Spot treat for fire ants during the warm season April – September Monitor and treat pest infestations such as Grub Worms, Army Worms and other pests that detrimental to plant health or public safety. August and September Pre-emergent for winter weeds by October 1.	May and August - Broadcast treatment for fire ants with Advion, Extinguish, or Award II, 11b per acre. Spot treat for fire ants during the warm season April – September As need, dependent on location, pest and amount of infestation August and September Pre-emergent for winter weeds by October 1.		
Fertilizer & Aerification Program	February 15-0-5 with preemergent for control of summer weeds March A single application of fertilizer should take place. 1 lb of N per 1000sf. Aerification of turf should be done just prior to application of fertilizer May A single application of slow release fertilizer should take place Aerification of turf should be done just prior to application of slow release fertilizer should take place Aerification of turf should be done just prior to application of fertilizer.	April, May, June A single application of fertilizer should take place by mid- May. It should be applied at 1 pound of N per 1000 sf. Aerification of turf should be done just prior to application of fertilizer. July, August, September One application of fertilizer should take place during this period in mid- July. It should be applied at 1 pound of N per 1000 sf. Aerification of turf should be done just prior to application	Treat as needed to prevent loss of turf	None	None

	July A single application of fertilizer should take place Aerification of turf should be done just prior to application of fertilizer. August, September A single application of slow release fertilizer should take place Aerification of turf should be done just prior to application of fertilizer.	of fertilizer.			
Action Threshold	Currently practicing good turf health practices, such as over-seeding, mulching, aeration, etc. Other measures will be taken prior to infestations to prevent degradation of the aesthetics, to eliminate rapidly declining plant health, to eliminate negative impacts on athletic programs and/or a threat to the public (wasps, mosquitos, etc.)	In some cases pests can be tolerated and is only considered a nuisance pest. Measures may be taken when infestations are present and are detrimental to plant health and a threat to public safety. Pests will be controlled in active areas such as playgrounds, hard surface trails, and around public buildings.	In some cases pests can be tolerated and is only considered a nuisance pest Vegetation is critical for stream stabilization and is tolerated in specific locations. Measures may be taken when infestations are present and are detrimental to plant health and a threat to public safety. Pests will be controlled in active areas such as playgrounds, hard surface trails, and around public buildings.	As needed to maintain an identified particular natural state or within City code.	Measures will be taken for vegetation encroachment on soft surface trails.

TREE / SHRUB MAINTENANCE

MAINTENANCE TASK	Class A	Class B	Class C	Class D
Tree Trimming	Remove low limbs as needed for safety & equipment access.	Only hazardous limbs as needed.	Only hazardous limbs as needed.	Only hazardous limbs as needed.
Shrub Trimming	Complete trim 5-7 times per year.	Complete trim 5 times per year.	Not performed	Not performed
Pesticide Program.	As needed to prevent loss of plant material.	As needed to prevent loss of plant material.	Not performed	Not performed
Fertilization	2 times/year	Not performed	Not performed	Not performed
Stump Removal	As needed when higher priority projects are completed.	As needed during winter.	As needed during winter.	Only hazardous trees as needed, others maintained for wildlife habitat.
Action Threshold	Choosing proper plant material and practicing proper planting methods, fertilizing, mulching, etc. Other measures will be taken prior to infestations to prevent degradation of the aesthetics, rapidly declining plants, and/or hazardous situations to the public (wasps, mosquitos, etc.)	In some cases pests can be tolerated and is only considered a nuisance pest. Other measures will be taken prior to infestations to prevent degradation of the aesthetics, rapidly declining plants, and/or hazardous situations to the public (wasps, mosquitos, etc.)	As needed to maintain an identified particular natural state or within City code.	None

ATHLETIC FIELD MAINTENANCE

MAINTENANCE TASK	Class AA & A
Baseball Field	
Annual Off Season Maintenance	-Once a year add clay or amendment if neededTill up clay area to break up hard spots.
	-Blade clay areas to proper grade.
	-Remove any silt build up along grass and fence lines.
	-Check outfield grass area for high and or low areas, and for large cracks, silt in material if needed.
Grounds Maintenance - League play,	
good quality, maintain safety standards	
Maintained -	-As scheduled for games
Restroom/Concessions	-Permanent cleaned daily
	Portable serviced bi-weekly.
Safety Check (lights, glass,	-2-3 times per week
fence, bleachers)	
Pitcher Mound	-As scheduled for games
Field Lights	-Infield 30 foot-candles
Evers, Denia, N Lakes, F. Moore	-Outfield 20 foot-candles
Roberts Field & Mack	-50/30
Parking Lot	-As scheduled for games
Scoreboards	-Replace bulbs as needed.
Trades Maintenance Program	
Turf Irrigation Systems	-Monthly inspections & repairs as needed.
Parking lots	-Quarterly inspections
Ballfield lights	-Monthly inspection & bulb replacement (if needed).
Bleachers	-Quarterly inspections
Fences & Backstops	-Quarterly inspections
Parking Lot Striping	-Yearly inspections
Restrooms & Concessions	-Plumbing, electrical and structural repairs as needed.
Scoreboards	-Annual off season service or as needed
Softball Field	
Annual Off Season Maintenance	-Once a year add clay material if needed.
	-Till up clay area to break up hard spots.
	-Blade clay areas to proper grade.
	-Remove any silt build up along grass and fence lines.
Crounda Maintanana I	-Check outfield grass area for high and or low areas, and
