| Any areas we need to improve? Is there anything else you would like us to know? | Comment | My son joined a youth team and was the only boy on the team of all girls. We found out after signing up that his team was named the Volley Queens. When I questioned why his team would be a girl named team, we were told that the names were picked prior to looking at the final rosters. Secondly, while we were lucky this year, it appears there are very feminine colors, pinks, purples, etc for the teams along with female jerseys (capped sleeves, fitted shirts). I really think there needs to be consideration for male players. I feel this is a big turn off for parents of boys who wish to participate in volleyball and it may be the reason you don't get a lot of boys signing up. Please be mindful... my son just wanted to play volleyball and learn, have fun, meet new friends without be singled out because he was a boy! |

| Any areas we need to improve? Is there anything else you would like us to know? | Comment | <p>Overall, my daughter had a great experience this season, and she loves her team and coaches. We had issues with the practice balls being underinflated and apparently not attended to from the very beginning of the season. Parents brought pumps and gauges and inflated all the balls during practice after a couple of weeks. If the balls could be examined and properly inflated before the summer season begins, that would be wonderful. This past season's games scheduling seemed less organized and uneven compared to the schedule last fall. I'm not sure what happened, but maybe it was just an off season. My daughter is already signed up to play again for the summer! The coaches that we had here terrible. I am referring to Michelle Everage and her husband This is not my daughters first year in this league, so we knew of these coaches having played against them before. This is the first year that we were on their team. They are very nice people - thats not the issue. They do not coach at all. Not only do they not help the girls get better -- but they offer NO WORDS of encouragement. The practices were actually silent. SILENT. Think about that. Volleyball practices are usually loud. The girls are having a good time and you can't get a word in. But these practices were silent. The coaches only talked to their two daughters. And it was obvious that one of their daughters did not want to be there. She put no effort forth. It was such an odd experience. And they lost all of their games. all of them. I really felt terrible for all of the girls on the team. They signed up to be there. We paid money to be there -- and they did not have any fun at all. If I had known this about the coaches I would have requested to not have them. I would have rather coached. Again - this is not a reflection of them as people - they are nice people. But they had no idea what they were doing. I dont know if this survey is anonymous -- but I am happy to talk to someone if needed. This is Letty Cortez and my cell is 940 230 5281 My daughter has signed up for the summer with another team that is bringing a VB coach with them 14U, the past reason that just ended the games needed to be more equal. Our team played the same team almost every weekend</p> <p>We played the same team 4 times it was a joke. Not sure why we never played the other teams in the league. Then the day before the tourney they changed the time of the game and half our team couldnt be there bc of that change. The score keeper gave our points to the other team lost bc of it...terrible will absolutely not sogn up again.</p> <p>The league was fine. The coaching was horrendous. We joined the league so my daughter could work on her skill set for school. That didn't happen. The coaches were more interested in ice</p> |

cream at Braums after the game than proper coaching. It is very deflating to lose every game by an embarrassing margin.

| Any areas we need to improve? Is there anything else you would like us to know? | Comment | For volleyball I would ask each team to provide a line judge. Many times the judge chose based on which team made the most fuss about the call, it is very hard for them to see from their one position. The score keepers and refs really need to pay attention to the game - most of them are very kind and respectful |

Is there anything else you would like us to know? | Comment | I had a very hard time with parents and children Showing up for practices and games, resulting in me having to cancel numerous practices. It was very frustrating dealing with some of the parents, and not knowing as a coach who to turn too for guidance. Other than that it was great! Wonderful team and a fun experience! Set up expectations of coaches better. The score keeper and refs knowing rules a little better |

| Any areas we need to improve? Is there anything else you would like us to know? | Comment | Construction around campus past few weeks were a hassle and I did not see any information/emails about alternate routes to the facilities for practices and games. Improve accessibility in the viewing areas. Both gyms are very inaccessible or offer no seating at all. Often the score keepers are distracted. Maintain crowd control - we experienced a very rude parent on an opposing team that caused our girls to be very upset and no one intervened. The refs miss a lot of calls and scorekeeper misses giving points. Parents were yelling at the refs due to missed calls, which was affecting our team/ girls. One way which may improve it is to get some line judges. |

| Any areas we need to improve? Is there anything else you would like us to know? | Comment | I recognize officials are difficult to come by for youth sports, so it is hard to be critical. However, this season the officials we primarily saw were more interested in taking selfies and looked bored on the court, or who didn't show up so our game started late. Their lack of interest or ability to be engaged in the task they were being paid for set a poor example for the girls on the court giving it their all. |
